Strawn, Silas Hardy,	Ottawa,	Teaching
Trainor, Thomas Henry,	Ann Arbor, Mich.,	In Michigan University
Trimble, Fannie Mason,	Ottawa,	At home

Total No. of Graduates—153.

CLASS OF '86.

CLASSICAL.

Agard, Madge Amelia.
Armstrong, Hart Chapman.
Barton, Harry Screiber.
Butters, Albert Edward.
Eldredge, Edgar.
Greene, Sadie Eliza.
Hamilton, Alida.
Hammon, Orin Victor.
Hapeman, Mary Thomas.
Hunsberger, Charles Abraham.
Jessup, Lorena.
Killelea, Joseph J.
Moore, James.
Patchen, Sophie Agnes.
Scott, John William.
Snow, William Crocker.
Wilson, Charles Francis.
White, Caddie Doane.
Young, Thomas James.

LATIN SCIENTIFIC.

Rheil, Myra Agatha.
Roberts, Susie Belle.
Strawn, Julia C.
Robson, Mamie Frances.
Tuberty, Anna.

MODERN LANGUAGE.

Baumgardner, Henry Philip.

BUSINESS ENGLISH.

Beach, Frank Lee.
Bushnell, Sylvia Adeline.
Cadwell, John Milton.
Titzell, Frank C.
Waterman, Emma Julia.
Watts, Flora Belle.
Wilson, Charles C.

PUPILS.

POST GRADUATES.

	Course.	*Credits.*	*Residence.*
Butters, Albert Edward,	Cl.	$20\frac{2}{3}$	Ottawa
Hatheway, Maurice Elnathan.	M.	$17\frac{1}{2}$	Ottawa
Hoffman, John Raymond,	Cl.	18	Ottawa
Jaques, Florence E.,	L.	$18\frac{2}{3}$	Ottawa

UNDER-GRADUATES.

Agard, Madge Amelia,	Cl.	$16\frac{2}{3}$	Ottawa
Agard, Rosalie Isabella,	L.	12	Ottawa
Angevine, Bertha Davenport,	E.	$6\frac{1}{3}$	Dayton
Armour, Annie,	L.	11	Ottawa
Armstrong, Hart Champlin,	Cl.	$17\frac{1}{3}$	Deer Park
Armstrong, Sophia Elizabeth,	E.	5	Ottawa
Ashley, Mabelle Delia,	Cl. or L.	4	Ottawa
Baker, Benjamin Garrison,	E.	1	Ottawa
Barnard, Charles Henry,	E.	4	Ottawa
Barnard, Gertrude Serena,	L	12	Ottawa
Barnes, Carrie L.,	E.	7	Dayton
Barton, Harry Schreiber,	Cl.	$16\frac{1}{3}$	Ottawa
Baumgardner, Henry Philip,	M.	$16\frac{1}{3}$	Ottawa
Beach, Frank Lee,	E.	$16\frac{2}{3}$	Dayton
Beers, Cora Almira,	E.	$2\frac{2}{3}$	Ottawa
Belknap, Della E.,	E.	$2\frac{2}{3}$	Waltham
Belknap, Sadie A.,	E.	4	Waltham
Bell, Edgar,	E.	$2\frac{1}{2}$	Chicago
Bennett, Minnie A.,	E.	5	Waltham
Bowers, Libbie Anna,	Cl. or L.	4	Ottawa
Boyle, Benjamin Julius,	L.	4	Ottawa

NOTE.—The letters in the column headed "Course" show in which of the four courses of study the pupil is working. "Cl.," Classical; "L." Latin Scientific; "M.," Modern Languages; "E." Business English. As the Classical and Latin Scientific courses are the same for the first two years, and the final choice need not be made until the beginning of the Junior year, all Sophomores and Freshmen in either of these courses are marked "Cl. or L."

The figures under the heading "Credits" show the number of full credits taken prior to the end of the current school year, 1885-6. By a full credit is meant one recitation each day for a year. As each pupil is expected to carry four recitations per day, a Senior should have at least sixteen credits opposite his name; a Junior, at least twelve; a Sophomore, at least eight; and a Freshman at least four. A pupil must have sixteen credits before he can graduate.

INFORMATION.

This school was organized under the "Township System" on the thirteenth of April, 1878, and at once took the place of the old city High School. It is supported by the city and by the two adjacent townships of North Ottawa and South Ottawa. The first Board of Trustees consisted of Dr. J. C. Hatheway, William Galvin and James H. Pickens. Under their efficient management the school was placed on a firm basis and the present beautiful building erected.

Much of the success of the school is due to the energy and organizing ability of the first Principal, Henry L. Boltwood, who remained till June, 1883, when he was succeeded by the present Principal, Charles W. Tufts. The school is under the management of the Township Board of Trustees, and has no connection with the city schools, except that pupils graduating from the city ward schools can enter the first year class in the High School on diploma without examination.

The growth of the school has been remarkable. Starting with only about a hundred pupils, it has grown in eight years to be the largest of the six Township High Schools in Illinois, and the largest High School of any kind in the state outside of Chicago. This growth has come not merely from the city, but from all the surrounding townships and counties. Nearly all parts of Northern Illinois, and some of the neighboring states, are represented among the pupils.

OTTAWA, ILL.

Ottawa, Ill., where the school is located, is eighty-two miles west of Chicago, on the Chicago, Rock Island & Pacific, and the Chicago, Burlington & Quincy Railroads, and on the Illinois & Michigan Canal. Ottawa is the county seat of La Salle county and the seat of the State Supreme Court. It has a population of ten thousand and is said to be the most beautiful city in Illinois for its situation and the grandeur of its surrounding scenery. It is situated on the level land between the high bluffs of the Illinois river, at the mouth of the Fox river. The city is divided by these rivers and by the canal into North, South, East and West Ottawa. The dells, cascades, canyons and bluffs near attract tourists from all over the Northwest. The city is watered by scores of artesian wells, which yield the purest and most healthful water.

EQUIPMENT

The High School building, one of the best of the kind in the state, is located nearly opposite the park in the center of the city. It is supplied with artesian water, is well warmed, lighted and ventilated; in short, is planned throughout with especial reference to health and comfort. A well equipped laboratory, good philosophical apparatus, and a general reference library are provided. As an invaluable help to the department of natural sciences, there is deposited in the building the well known collection of the Ottawa Academy of Natural Sciences. This collection, tastefully arranged in glass cases, fills one of the largest rooms in the building and is a fine museum in itself.

By a resolution of the Board, no new teacher can be employed who is not a graduate of some first-class college or university, and the Trustees do all in their power to secure the very best instructors.

The late William Reddick left his magnificent sixty thousand dollar residence, situated opposite the High School Building, and property besides estimated at from one hundred to one hundred and fifty thousand dollars, to found a city library to be called "The Reddick Library." This will establish one of the finest libraries in the West and render Ottawa most desirable as a residence city. The use of such a library, free to the pupils, and almost as conveniently located as if in the same building, will be of incalculable value to this school.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, Elementary U. S. History (such as may be learned from any brief history), English Grammar, Spelling, Reading and Writing.

A teacher's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the first Saturday in September of each year, beginning at 9 A. M. The examination will be in writing and pupils will come prepared with paper and pencil.

For the benefit of those pupils from outside the city who are not fitted for the High School proper, a Preparatory Class is formed, in which the pupils pursue only studies required for admission to the High School. Such pupils should be nearly ready to enter. The department is not free to pupils who live in the city, as the ward schools do the same grade of work. No pupil will be admitted from the ward schools to the preparatory class unless he has already completed all of seventh grade work.

The four years' course in Latin and Mathematics, and two years in Greek, German or French, together with the parallel work in English, will fit pupils to enter Harvard, Yale, or any of the leading American colleges.

The school is also an accredited diploma school for the University of Illinois and the University of Michigan, and graduates from here can enter those institutions without examination.

Four regular courses are offered, the first three of which will prepare pupils to enter corresponding courses in college. These are planned for four years, and are as follows:

COURSE OF STUDY.

Year.	Term.	Classical.	Latin—Scientific.	Modern Language.	Business—English.
I.	1.	English History. Botany. Begin Latin. Language.	English History. Botany. Begin Latin. Language.	English History. Botany. Begin French.* Language.	English History. Botany. Algebra. Language.
	2.	English History. Algebra. Latin. Language.	English History. Algebra. Latin. Language.	English History. Algebra. French. Language.	English History. Grammar. Algebra. Language.
	3.	Review Am. History. Botany. Latin. Language.	Review Am. History. Botany. Latin. Language.	Review Am. History. Botany. French. Language.	Review Am. History Botany. Botany. Language.
II.	1.	Algebra. Zoology. Caesar. Language.	Algebra. Zoology. Caesar. Language.	Algebra. Zoology. French. Language.	Arithmetic. Zoology. Rhetoric. Language.
	2.	Arithmetic. Physiology. Caesar. Language.	Arithmetic. Physiology. Caesar. Language.	Arithmetic. Physiology. French. Language.	Arithmetic. Physiology. Penmanship. Language.
	3.	Arithmetic. Zoology. Caesar. Language.	Arithmetic. Zoology. Caesar. Language.	Arithmetic. Zoology. French. Language.	Arithmetic. Zoology. Civil Government. Language.
III.	1.	Algebra. Cicero. Greek. Language.	Algebra. Cicero. German or French.* Language.	Algebra. German.* Physics. Language.	Algebra. Bookkeeping. Physics. Language.

GENERAL INFORMATION.

Ottawa, the county seat of La Salle county, and the seat of the Supreme Court for the Northern Division of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P., and Fox River Branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 12,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel: its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sand stone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral springs and artesian wells furnish an abundant supply of excellent water for general use. The healthfulness of the city is shown by a death rate said to be lower than that of any other place of equal population in the United States; and numerous successful manufactories attest the enterprise of her citizens.

The late William Reddick bequeathed his fine sixty thousand dollar residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This Library, one of the finest in the west, is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarian, especially helpful to the High School. It unites with many other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees. Its first Principal, to whose energy and ability much of the success of the School is due, was Mr. Henry L. Boltwood, who remained till 1883. The growth of the School has been very satisfactory. Starting with only one hundred pupils, it has grown in nine years to be largest of the six Township High Schools in Illi-

nois, and one of the largest High Schools of any kind in the State outside of Chicago. This growth has come not only from the city but also from the surrounding townships and counties.

THE HIGH SCHOOL BUILDING is located in the center of the city, near the Park. It is supplied with artesian water, is heated and ventilated by the Ruttan System, and is well lighted by tripple windows at the side and rear of each room. Three rooms are fitted up as laboratories, having gas, water, tables and other appliances for practical work in sciences.

As a valuable aid to the department of Natural Sciences, there is deposited in the building the rich collection of the Ottawa Academy of Sciences, and the large herbarium representing nearly all the flowering plants of La Salle county, collected and arranged Mr. Boltwood. These collections occupy a convenient room on the first floor of the building. The School is supplied with chemical and physical apparatus, has a good general reference Library and a reading room well supplied with current literature.

It is the purpose of the management to give those desiring it, a thorough, useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end, teachers are selected solely with a fitness for their especial work, and in general no pains are spared to make the School all that a first-class High School ought to be.

Four regular courses are offered. They are planned for four years and are as follows :

COURSES OF STUDY.

Year.	Term	Classical.	Latin—Scientific.	Modern Language.	English.
I.	1.	Algebra. Latin. English History. Botany.	Algebra. Latin. English History. Botany.	Algebra. Latin. English History. Botany.	Algebra Latin. English History. Botany.

Spring Term.	Review Arith	Virgil.	Greek Hist.	Milton.		German.	Chemistry or Phys. Geog'y	Roman and Grecian.	Theory and Practice of Teaching.

In addition to the studies especially mentioned in the preceding tables, systematic instruction will be given throughout the course in Elocution, English Composition and Drawing.

So far as possible, those who enter for study during the winter only will be provided with the work for which they are best prepared.

All students will be expected to carry the work of the course which they select, unless their parents or guardians request that they be excused from some part of the same. No student will be allowed to carry more than four studies, except at the request of parent or guardian, and then only so long as he does the work satisfactorily.

At the completion of a study, or of a year's work in a study, the student will be credited with the number of terms spent upon the study. Twelve such credits each year, or forty-eight in all, are required for graduation.

The diploma of the school entitles the holder to admission without examination to the Illinois State University, Michigan State University, Knox College and Oberlin College.

Requirements for Admission.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, Elementary U. S. History, English Grammar, Spelling, Reading and Writing.

Pupils graduating from the city ward schools may enter the first year class in the High School on diploma without examination.

A teacher's certificate will admit the holder to the School without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school, in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils will come prepared with paper and pencil.

Expenses.

Tuition is at the uniform rate of ten dollars per term in all departments. No extras. Tuition must be paid in advance to the Treasurer, Al. F. Schoch, at the National City Bank, north of the court house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the School. Pupils entering during a term are required to pay only from the time they enter till the end of the term.

Board can be had in private families at about $2.50 per week where pupils go home for Saturday and Sunday, or at $3.50 for the entire week.

A list of good boarding places can be seen at the Principal's office.

Text Books.

MATHEMATICS.—Arithmetic—Kirk and Beltfield.
Algebra—Sheldon.
Geometry—Olney.

LATIN.— First Book—Collar and Daniels.
Prose Composition—Jones.
Grammar—Harkness.

GENERAL INFORMATION.

OTTAWA.

Ottawa, the county seat of La Salle county, and the seat of the Supreme Court of the Northern Division of Illinois, is eighty-two miles west of Chicago on the C. R. I. & P. and Fox River Branch of the C. B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral springs and artesian wells furnish an abundant supply of excellent water for general use. Electric lights and the electric street railway add much to the comfort and convenience of the citizens.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This library is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the school, the following gentlemen have been members:

Dr. J. C. Hatheway,	1877–1882
J. H. Pickens,	1878–1881
William Galvin,	1879–1882
P. C. Watts,	1881–1890
E. B. Lovejoy,	1882 1885
Duncan McDougall,	1882–1886, 1895–1898
Abner Strawn,	1885–1888
W. J. Graham,	1886–1889
G. W. Townsend,	1888–1891, 1894–1897
T. E. MacKinlay,	1888–1895
J. R. Hunt,	1890–1896
Chas. Schaulin,	1891–1894

THE BUILDING.

The High School Building is located in the center of the city, near the park. It is supplied with artesian water, is well lighted, warmed and ventilated. Three rooms are fitted up as laboratories, having gas, water, tables, and other appliances for work in the sciences.

VALUABLE AIDS.

As valuable aids to the department of Natural Science, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood, the first principal of the school. These collections occupy a convenient room on the first floor of the building. The school is well supplied with chemical and physical apparatus, and has a general reference library.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end, teachers are selected solely with regard to their fitness for their especial work, and, in general, no pains are spared to make the School all that a good High School ought to be.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

Classical.	Latin.	Modern Language.	Scientific.
Algebra.	Algebra.	Algebra.	Algebra.
Latin.	Latin.	Latin.	U. S. Hist., English Grammar.
1 American Literature.	American Literature.	American Literature.	American Literature.
1 English Composition.	English Composition.	English Composition.	English Composition.
2 Botany.	Botany.	Botany.	Botany.
2 Physiology.	Physiology.	Physiology.	Physiology.
Algebra and Geometry.	Algebra and Geometry.	Algebra and Geometry.	Algebra and Geometry.
3 Rhetoric.	Rhetoric.	Rhetoric.	Rhetoric.
3 Ancient History.	Ancient History.	Ancient History.	Ancient History.
Latin.	Latin.	German.	Book-keeping; Commercial law.
Greek.	German or French.	French.	Zoology.
4 Geometry.	Geometry.	Geometry.	Geometry.
5 Modern History.	Modern History.	Modern History.	Modern History.
5 English Literature.	English Literature.	English Literature.	English Literature.
Latin.	Latin.	German.	Special English or Fr. or Ger.
Greek.	German or French.	French.	Chemistry.
English Literature.	English Literature.	English Literature.	English Literature.
Physics.	Physics.	Physics.	Physics.
Latin.	Latin.	German.	Physicial Geo., or Fr. or Ger.
6 Greek.	German or French.	French.	Political Economy.
6 Civil Government.	Civil Government.	Civil Government.	Civil Government.

1. American Literature will occupy four hours, and English Composition one hour a week in all courses.
2. Botany will occupy the fall and spring terms; Physiology the winter term.
3. Rhetoric will occupy the first, and Ancient History the last eighteen weeks of the year.
4. In the place of Solid Geometry an elective study may be taken.
5. Modern History will occupy the first, and English Literature the last eighteen weeks of the year.
6. Greek, German, French, and Political Economy will occupy three, and Civil Government two recitations per week through the year.

COURSES BY SUBJECTS.

ENGLISH LITERATURE AND COMPOSITION AND HISTORY.

The work in these branches extends through the four years of the High School course, without interruption. The aim of this work is to give careful training in (1) English Grammar; (2) English Composition and Rhetoric; (3) to develop a taste for good literature by the reading of American and English masterpieces (especially those required by the Eastern and the Western Associations of Colleges); (4) to give a general view of the history of English literature.

Some American or English masterpieces are read each year, and written essays, themes, analyses. and reproductions, growing out of the literary or historical study. are required throughout the course. Public literary exercises will be required of each pupil once a month. Elocutionary instruction and drill will be given to each class one hour a week.

OUTLINE OF WORK FOR 1895-6.

I. First Year—(a) Irving's "Sketch Book"; "American Prose" and "American Poems" (Houghton & Mifflin); Hawthorne's "Twice Told Tales" or "House of Seven Gables"; (b) English Composition and Rhetoric, one hour a week; (c) English Grammar, one half year, (English Course); (d) American History, one-half year, (English Course.)

II. Second Year—(a) Reading, as basis of composition and as supplemental to history work, of the "Sir Roger de Coverley Papers," Pope's "Iliad", Books I and XXII, Shakespeare's "Julius Cæsar", Macaulay's "Lays of Ancient Rome"; (b) Rhetoric and Composition (Genung), one-half year; (c) Ancient History (Myers' General History through Rome), one-half year.

III. Third Year—(a) Myers' General History (Mediæval and Modern), one-half year; (b) Reading of De Foe's "History of the Plague"; Eliot's "Silas Marner"; Scott's "Marmion"; Dickens' "Tale of Two Cities"; Composition and Rhetoric (Genung) one-half year; (c) Three set themes.

IV. FOURTH YEAR—Entire year, (a) History of English literature (Cathcart's Literary Reader, lectures, and reference work); (b) Critical reading in class of Shakespeare's "Merchant of Venice" and "Midsummer Night's Dream"; Milton's "L'Allegro", "Il Penseroso," "Comus," and "Lycidas"; Macaulay's "Essay on Milton"; Webster's "First Bunker Hill Oration"; (c) General reading for composition work, of DeFoe's "History of the Plague," Eliot's "Silas Marner," Scott's "Woodstock"; (d) Three public orations.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN.—First Year; First Lessons and Cæsar. Second Year: Cæsar and Prose Composition. Third Year: Cicero, and Prose Composition. Fourth Year: Vergil and review of Roman History.

GREEK.—First Year: First Lessons and Anabasis. Second Year: Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors and review of Greek History. Sight reading in both Greek and Latin.

MODERN LANGUAGES.

GERMAN.—First Year: First Lesons; Common Idioms; Sentence Framing; Grammar: Inflection of nouns, pronouns, adjectives, and verbs. Reading: Volkmann's Kleine Geschichten.

Second Year: Grammar, less usual forms; Prose Composition; Letter Writing; Reading: Heyse's L'Arrabbiata, Schiller's Der Neffe als Onkel, Schiller's Der Taucher, Hauff's Der Zwerg Nase.

Third Year: Study of Grammar; Prose Composition; Study of two different masterpieces each year; selections for '95-'96: Gœthe's Hermann und Dorothea, Schiller's Maria Stuart.

FRENCH.—First Year: Progressive Drill Book; Grammar; Sentence Forming; Composition exercises on text read; Whitney's Reader.

Second Year: Grammar, particular attention given to irregular verbs; Composition exercises on text read; Idioms; Six Poems memorized. The following selections are read: 1. Dosia, Greville; 1. Le Roman d'un Jeune Homme Pauvre, Feuillet; 3. L'Abbe Constantin, Halevy; 4. La Belle Nivernaise, Daudet.

Third Year: Grammar, particular attention given to the uses of the subjunctive and idioms; History of French Literature; six of La Fontaine's Fables, three of Victor Hugo's and three of Paul Bourget's Poems memorized. The following selections are read: 1. Two Modern French Plays, Bocher Series. 2. Les Pecheurs d'Islande, P. Loti. 3. La Tulipe Noire, A. Dumas. 4. L'histoire de la Revolution Francaise, Rambaud.

MATHEMATICS.

First Year: Algebra. Second Year: Algebra and Plane Geometry. Third Year: Plane and Solid Geometry. Fourth Year: Reviews.

SCIENCE.

Work in science extends throughout the four school years. The time devoted to each branch is as follows: First Year: Botany, first and third terms; Physiology, second term. Second Year: Zoology, three terms. Third Year: Chemistry, three terms. Fourth Year: Physics, three terms; Physical Geography. Both text book and laboratory methods are employed Laboratory courses in Botany, Zoology, Chemistry and Physics have been established, and three-fifths of the time devoted to these branches is given to laboratory work. In Botany and Zoology the work is chiefly a study of types of the great groups of plants and animals, but enough work is given in collecting and determining species to enable the pupil to become fairly well acquainted with the plants and animals in this locality. The work in Chemistry is a study of the properties of the different elements, the separation of the more common ones, and the qualitative analysis of simple unknown substances. In Physics two days per week are devoted to work in the laboratory, and two to recitations upon the text book and the facts observed in laboratory practice.

CIVICS.

Instruction in Civics is given throughout the Fourth year as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, two hours a week. 2. English course, Political Economy and Sociology, three hours a week.

DRAWING.

First Year—1st term: Free-hand Drawing; Historic Ornament; Designing in Straight Lines. 2d term: Drawing from models; Perspective, Designing. 3d term: Modeling in Clay–bas-relief; Mold and Cast making; Original Designing in Clay.

Third Year—1st term: Pencil Shading from the flat, Casts, and objects. 2d term: Studies in Charcoal; Features of the Face. 3d term: Crayon from Casts and Copies; Sketching from Nature in Charcoal, or 2d term: Pen Drawing, Lettering; Designing. 3d term: Pen Drawing, Still Life; Sketching from Nature.

FOURTH YEAR—1st term: Water Colors–Designing; Casts in Sepia. 2d term: Water Colors–Landscapes, Fruit and Flowers from Copy; Still Life. 3d term: Water Colors–Still Life, Sketching from Nature. or, 1st term: Mechanical Drawing. 2d term: Projection Drawing. 3d term: Water Colors.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused, and, if so excused, are required to substitute in its place one credit secured in some other study for each year's work in music.

TEACHERS' COURSE.

It is the purpose of the management to especially assist those who expect to teach in the public schools. To this end, if a sufficient number desire it, instruction will be given in the Elements of Mental Science, and the Theory and Practice of Teaching; and reviews of the common branches will be given, with especial reference to intelligent methods of teaching the same. None, however, will be permitted to take this work except those who expect to teach and who are prepared to be benefited by it.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing, and Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so, much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further study in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

DIPLOMAS.

The diploma of the School entitles the holder to admission without examination to the following colleges and universities:—

Illinois State University.	University of Michigan.
Northwestern University.	Lake Forest University.
Knox College.	Oberlin College.
Wellesley College.	Vassar College.
Beloit College.	Rockford College.

Wheaton College.

REQUIREMENTS FOR ADMISSION AND PROMOTION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, U. S. History, English Grammar, Spelling, Reading, and Writing.

Pupils having the diploma of the city ward schools may enter the first year class in the High School without examination.

A teacher's certificate will admit the holder to the school without examination.

Examinations for admissions will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils should come prepared with paper and pencil.

Those who enter for study during the winter only will be provided with the work for which they are best prepared.

All students will be expected to carry the work of the course which they select, unless their parents or guardians request that they be excused from some part of the same. No student will be allowed to carry more than four studies, except at the request of parent or guardian, and then only so long as he does the work satisfactorily.

Pupils whose parents desire them to do so, may pursue an elective course, but they will not be permitted to take studies for which their previous work has not prepared them, and in order to graduate from such a course the work chosen must be equivalent to that for which it is substituted.

Pupils will be required to maintain in their daily work an average standing of at least 70 per cent. If they can not do this with the ordinary number of studies they will be required to take fewer studies and do the work better. If, after a fair trial, they show that they either CAN not or WILL not make the required average they may be dropped from the school.

To pass in any study pupils must make a final average of at least 70 per cent.

When a pupil has passed in a study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is en-

titled in the records of the school, To graduate from the school forty-eight credits are required.

EXPENSES.

Tuition, in all departments, ten dollars per term. For less than a whole term, one dollar per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about $3.00 per week when pupils go home for Saturday and Sunday, or at $3.50 to $4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

GRADUATES.

Class of '78.

	Address.	Remarks.
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. Jas. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall
Formhals, Eda L.,	Ottawa,	Music

Sheehan, Anna L.,
Sheehan, Ita Mae.
White, Octavius R,,

Whole number of graduates 425; male 162; female 263.

Commencement, Tuesday Evening, June 4, 1895.

ORDER OF EXERCISES.

And One Man in His time Plays Many Parts (Salutatory).....
.....Samuel Day
Music .....Mabel Bathurst
The Inquisitive Instinct.....Dorothy Colwell
City or Country?.....Charles L. Clifford

Overture—"Poet and Peasant".....Suppe

Through the Vale of Tears.....Edith Hayward
National Luxury Dangerous.....Eugene Porcheur
The Bread we eat.....Anna Sheehan
The Postman on His Rounds.....Lucie Rigden

Waltz de concert.....Herbert

College Athletics.....Harry A. Roberts
The Mission of the Fools.....Vola Rhoades
Into the Sunset Sea.....Mabel Cooke
One Step Forward (Valedictory).....Clara Merrifield

Overture—Mosaic.....Rollinson

Presentation of Diplomas by Mr. J. O. Leslie.

Class Song.

High School Cadets' March.....Sousa

Positions on the Commencement Program are assigned for highest average scholarship—the valedictorian being first, the salutatorian second.

ALUNNI ASSOCIATION.

OFFICERS FOR 1895-'96.

Clarence Griggs .....Presiden
Hattie Rowe.....Vice-President
Clara Merrifield.....Recording Secretary
Georgia Eichelberger.....Corresponding Secretary
Chas. F. Wilson.....Treasurer
Bertha Finley, Geo. Gleim, Corinth Dewey .....Executive Committee

☞Graduates will please notify the Principal of the High School of any change in their address or occupation as early as May 1st of each year, that a correct report may appear in the Annual Catalogue.

PUPILS 1894='95.

POST GRADUATE STUDENTS.

Colwell Arthur.....Latin, Geometry and Rhetoric
DeLagneau, Alice B.,.....Drawing.
Dyer, Susie,.....Geometry, English Literature and French
Forster, Bertha.....Drawing
Kneussl, Annie,.....Drawing
Lardin, Carrie,.....Drawing
Lorriaux, Bertha,.....History
McKinney, Belle,.....Drawing and Stenography
Nash, Nellie, ...Drawing and Stenography
Rabenstein, Emma C.,.....Drawing

CALENDAR.

Examination for admission, Saturday, Sept. 7.

FALL TERM—twelve weeks—begins....Monday September 9, 1895
" " ends.....Friday, Nov. 29, 1895

WINTER TERM—twelve weeks—begins.....Monday, Dec. 2. 1895
" " ends.....Friday, March 6 1896

SPRING TERM—twelve weeks—begins.....Monday, March 9. 1896
" " ends .....Tuesday, June 9, 1896

It is very important that pupils be present at the beginning of the year and of each term.

There will be a vacation of two weeks at the holidays, and of one week at the end of the first month in the spring term

Commencement exercises, Tuesday, June 9 1896.

TEXT BOOKS.

MATHEMATICS	Arithmetic.
	Algebra—Wells.
	Geometry—Wells.
	Book-Keeping—Gay.
LATIN	First Book—Bellum Helvetium, Lowe and Butler.

GENERAL INFORMATION.

The Ottawa Township High School is located in Ottawa, the county seat of La Salle county, Illinois. It was organized under the "Township System," April 13, 1878. It is supported by the city, and the two adjacent townships of Ottawa and South Ottawa, and is under the control of the Township Board of Trustees. Since the founding of the school the following gentlemen have been members of this Board:

Dr. J. C. Hatheway,	1877-1882
J. H. Pickens,	1878-1881
William Galvin,	1879-1882
P. C. Watts,	1881-1890
E. B. Lovejoy,	1882-1885
Duncan McDougall,	1882-1886, 1895-1904
Abner Strawn,	1885-1888
W. J. Graham,	1886-1889
G. W. Townsend,	1888-1891, 1894-1906
T. E. MacKinlay,	1889-1895
J. R. Hunt,	1890-1905
Charles Schaulin,	1891-1894

COURSES OF STUDY.

Four regular courses of study are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

(See Notes Below.)

CLASSICAL.	LATIN.	MODERN LANGUAGE.	SCIENTIFIC.
Algebra. Latin. *Am. Literature; Eng. Comp. †Botany. †Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra or Arithmetic. English Grammar. Am. Literature; Eng. Comp. Botany. Physiology.
‖Algebra. Ancient History. ‖Civil Government. Latin. Greek	Algebra. Ancient History. Civil Government. Latin. German or French.	Algebra. Ancient History. Civil Government. German. French.	Algebra. Ancient History. Civil Government. Book-Keeping; Commerc'l Law. Zoology.
Plane Geometry. §Rhetoric. §Modern History. Latin. Greek.	Plane Geometry. Rhetoric. Modern History. Latin. German or French	Plane Geometry. Rhetoric. Modern History. German. French.	Plane Geometry. Rhetoric. Modern History. Pol. Economy; Parl. Practice. Chemistry.
English Literature. Physics. Latin. Greek. ‡Solid Geometry; Rev. Algebra.	English Literature. Physics. Latin. German or French. Solid Geometry; Rev. Algebra.	English Literature. Physics. German. French. Solid Geometry; Rev. Algebra.	English Literature. Physics. Reviews of Arithmetic, English Grammar, U. S. History and Geography.

*American Literature will occupy four hours and English Composition one hour a week in all courses.
†Botany will occupy the fall and spring terms. Physiology the winter term.
‖Each one-half year.
§Rhetoric will occupy the first term and Modern History the last two terms of the year.
‡Elective.
Arithmetic may be taken through the first year and Drawing through the last three years of the course
See section on "Elective Courses," page 9.

COURSES BY SUBJECTS.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues throughout the four years of the course.

First Year—(1) American Literature, reading of various authors, general view of history of American Literature; (2) Composition and Rhetoric, one day a week, entire year for all courses; (3) English Grammar and Composition, elective.

Second Year—(1) Ancient History (based on Myers and Allen as text-book); (2) reading of Pope's "Iliad," Books I., VI., XXII., XXIV.; Macaulay's "Lays of Ancient Rome," Shakespeare's "Julius Cæsar," and other illustrative literature; (3) Composition and Rhetoric, one day a week, entire year for all courses.

Third Year—(1) English History (based on Montgomery as text-book), with (2) Mediæval and Modern History incidental (no text-book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature, two terms; (4) Composition and Rhetoric, one term; (5) public essays and recitations; all courses, entire year.

Fourth Year—(1) History of English Literature, lectures, reference work, recitations (Halleck as text-book); (2) Review of history, incidental; (3) reading of "Silas Marner," "Vicar of Wakefield," "De Coverley Papers," "The Princess," "Macbeth," "Merchant of Venice," "Paradise Lost," Books I. and II., Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales," two cantos of "Faerie Queene," Milton's Lyrics, and other masterpieces; (4) public essays and orations, all courses, entire year; (5) American History, class-room and reference work (based on Montgomery's Students' History), entire year, elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

Latin—First Year: First Lessons and Viri Romæ. Second Year: Cæsar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Virgil and Ovid.

Greek—First Year: First Lessons and Anabasis. Second Year:

Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading: Mueller and Wenckelbach's "Glueck Auf"; Storm's "Immensee"; Poems memorized.

Second Year: Grammar; Prose Composition; Reading: Zschokke's "Der zerbrochene Krug"; Benedix's "Die Hochzeitsreise"; Schiller's "Der Taucher"; Wildenbruch's "Harold"; six Poems memorized.

Third Year: Grammar; Prose Composition; Reading: Lessing's "Minna von Barnhelm"; Dahn's "Ein Kampf um Rom"; Epochs in German Literature; six Poems memorized.

FRENCH.

First Year: Grammar; Sentence Forming; Reading; "La Tâche du Petit Pierre," Mairet.

Second Year: Grammar; Prose Composition; six Poems memorized; reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Quatrevingt Treize," Victor Hugo.

MATHEMATICS.

First Year: Algebra or Arithmetic. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Review of Algebra and Arithmetic.

PHYSICAL SCIENCE.

Chemistry.—Chemistry is a third-year study and extends throughout the year. Four days in the week are devoted to laboratory work, which is believed to be of supreme importance in presenting this subject. Study is made of the more common elements and compounds with reference to their properties, class characteristics, occurrence in nature, and chemical behavior. Quantitative experiments are occasionally introduced to bring out the exactness of the science and to cultivate carefulness in the work. Practice is given in determining various elements and compounds from their behavior with reagents.

Physics—Physics, a fourth-year study, occupies three terms. In presenting the subject effort is made to make practical the laws and principles studied by calling upon the pupils' experience both within and without the laboratory. About sixty experiments, largely quantitative, are performed by the pupils, and supplementing these are various others given before the class.

In both Physics and Chemistry the note-book is considered of prime importance, the pupil being required to write a careful report of each experiment, stating in his own language what he has learned from the experiment.

BIOLOGICAL SCIENCE.

Botany is pursued during the first and third terms of the first year, attention being especially directed to the life history of type forms. The types usually studied as representing the great groups are as follows:

Thallophytes—Oscillaria, Gleocapsa, Nostoc, Pleurococcus, Diatoms, Desmids, Spirogyra, Endogonium, Vaucheria, Cladophora, Chara, Mucor, Saprolegnia, Lilac Mildew, Cup Fungus, Yeast, Wheat Rust, Toadstool.

Bryophytes—Liverworts and Mosses.

Pteridophytes—A Fern, Equisetum, Selaginella.

Spermatophytes—White Pine, Lily, Corn, Bean, Pea, Shepherd's Purse.

Plant Physiology and Ecology, as based on actual observation of living plants, are given an important place in the course.

During the spring term each pupil is required to prepare an herbarium of at least twenty-five specimens carefully mounted and properly determined.

Physiology occupies the second term of the first year. The work is based on observation and experiment in so far as it is practicable.

Zoology is a second-year study and occupies three terms. Observation and dissection of as many type forms as possible are made, together with comparative study. The idea of adaptation is kept prominently before the pupils, thus making the work of observation and dissection the basis of animal physiology and ecology.

The following are the types usually examined: Amoeba, Vorticella, Paramoecium, Volvox, Pandorina, Fresh-Water Sponge, Hydra, Earthworm, Mussel, Snail, Crayfish, Cyclops, Sow Bug, Centiped, Grasshopper, Butterfly, Beetle, (Starfish), Fish, Frog, Pigeon, (Rabbit).

Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading: Mueller and Wenckelbach's "Glueck Auf"; Storm's "Immensee"; Poems memorized.

Second Year: Grammar; Prose Composition; Reading: Zschokke's "Der zerbrochene Krug"; Benedix's "Die Hochzeitsreise"; Schiller's "Der Taucher"; Wildenbruch's "Harold"; six Poems memorized.

Third Year: Grammar; Prose Composition; Reading: Lessing's "Minna von Barnhelm"; Dahn's "Ein Kampf um Rom"; Epochs in German Literature; six Poems memorized.

FRENCH.

First Year: Grammar; Sentence Forming; Reading; "La Tâche du Petit Pierre," Mairet.

Second Year: Grammar; Prose Composition; six Poems memorized; reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Quatrevingt Treize," Victor Hugo.

MATHEMATICS.

First Year: Algebra or Arithmetic. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Review of Algebra and Arithmetic.

PHYSICAL SCIENCE.

Chemistry.—Chemistry is a third-year study and extends throughout the year. Four days in the week are devoted to laboratory work, which is believed to be of supreme importance in presenting this subject. Study is made of the more common elements and compounds with reference to their properties, class characteristics, occurrence in nature, and chemical behavior. Quantitative experiments are occasionally introduced to bring out the exactness of the science and to cultivate carefulness in the work. Practice is given in determining various elements and compounds from their behavior with reagents.

Physics—Physics, a fourth-year study, occupies three terms. In presenting the subject effort is made to make practical the laws and principles studied by calling upon the pupils' experience both within and without the laboratory. About sixty experiments, largely quantitative, are performed by the pupils, and supplementing these are various others given before the class.

In both Physics and Chemistry the note-book is considered of prime importance, the pupil being required to write a careful report of each experiment, stating in his own language what he has learned from the experiment.

BIOLOGICAL SCIENCE.

Botany is pursued during the first and third terms of the first year, attention being especially directed to the life history of type forms. The types usually studied as representing the great groups are as follows:

Thallophytes—Oscillaria, Gleocapsa, Nostoc, Pleurococcus, Diatoms, Desmids, Spirogyra, Endogonium, Vaucheria, Cladophora, Chara, Mucor, Saprolegnia, Lilac Mildew, Cup Fungus, Yeast, Wheat Rust, Toadstool.

Bryophytes—Liverworts and Mosses.

Pteridophytes—A Fern, Equisetum, Selaginella.

Spermatophytes—White Pine, Lily, Corn, Bean, Pea, Shepherd's Purse.

Plant Physiology and Ecology, as based on actual observation of living plants, are given an important place in the course.

During the spring term each pupil is required to prepare an herbarium of at least twenty-five specimens carefully mounted and properly determined.

Physiology occupies the second term of the first year. The work is based on observation and experiment in so far as it is practicable.

Zoology is a second-year study and occupies three terms. Observation and dissection of as many type forms as possible are made, together with comparative study. The idea of adaptation is kept prominently before the pupils, thus making the work of observation and dissection the basis of animal physiology and ecology.

The following are the types usually examined: Amoeba, Vorticella, Paramoecium, Volvox, Pandorina, Fresh-Water Sponge, Hydra, Earthworm, Mussel, Snail, Crayfish, Cyclops, Sow Bug, Centiped, Grasshopper, Butterfly, Beetle, (Starfish), Fish, Frog, Pigeon, (Rabbit).

CIVICS.

Instruction in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one-half year. 2. English course, Political Economy and Sociology, two terms. 3. Parliamentary Law, one term.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from Models, Designing and Perspective.

Second Year—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared. **It should be distinctly understood that, In order to enter any of the various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by the pupils and approved by their parents, may not admit to any regular college course.**

REQUIREMENTS.

FOR ADMISSION.

Pupils are admitted to the high school upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first-year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at nine o'clock a. m.

FOR PROMOTION AND GRADUATION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they are required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

NUMBER OF STUDIES.

To complete the courses of study outlined above four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties

outside of school, are advised to take more than four years to complete their courses of study.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Vocal Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life or for further study in the higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

ADMISSION TO COLLEGE.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

University of Illinois.
Lake Forest College.
Knox College.
Wellesley College.
Beloit College.
Wheaton College.
University of Michigan.
Northwestern University.
Oberlin College.
Vassar College.
Rockford College.
Cornell University.
University of Chicago.
Williams College.
Purdue University.

EXPENSES.

Tuition, in all departments, $10.00 per term. For less than a whole term, $1.00 per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about $3.00 per week, when pupils go home Saturday and Sunday, or at $3.50 to $4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

GRADUATES.

CLASS OF '78.

	Address.	Remarks.
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. J. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall
Formhals, Edna L.,	Ottawa,	Music
*Kennedy, Maria A.		
Penney, A. Della,	Hyde Park,	Mrs. Thomas McCall
Penney, Edith M.,	Ottawa,	Mrs. Emil P. Johnson
Roberts, Lida E.,	Ottawa,	At home
Trabing, Hattie H.,	Lombard,	Mrs. Sieving

CLASS OF '79.

Childs, Cora L.,	Chicago,	Mrs. Harry Green
Dewey, Corinth,	Ottawa,	Business
Dwyer, Thomas F.,	Ivy, Kan.,	Farming
Eldredge, Lottie E.,	Ottawa,	At home
Graham, Edward J.,	Ottawa,	Business
Hinsdale, Norman D.,	Pueblo, Colo.,	Banking
Hoadley, Marion A.,	Streator,	Teaching
Long, James A.,	Washington, D. C.,	Law
Marriner, Belle D.,	Chicago,	Business

CLASS OF '80.

*Beem, Fanny C.,		Mrs. Charles L. Bradford
Boyle, Minnie E.,	Ottawa,	At home
Butterfield, Everett H.,	Ottawa,	Medicine
Eichelberger, Georgia M.,	Ottawa,	Business
Gondolf, Amelia N.,	Chicago,	Teaching
McNair, Margaret L.,	Monticello, Iowa,	Mrs. C. C. Warner
Meigs, Anna S.,	Pueblo, Colo.,	At home
Strawn, Belle C.,	Jacksonville, Fla.,	Mrs. Arthur Perry
Wood, Katie E.,	Ottawa,	At home

CLASS OF '81.

Ames, Alice L.,	Ottawa,	Book-keeping
Childs, Winnie V.,	Chicago,	At home

*Deceased.

	Address.	Remarks.
Fellows, Maud,	Ottawa,	Business
Fry, Medora,	Ottawa,	Mrs. H. B. Shaw
Fuller, Carrie M.,	Dixon,	Mrs. A. G. Judd
Finley, John H.,	New York,	President of College
Glover, Carrie,	Ottawa,	Teaching
Leland, Julia,	Clyde, Kan.,	Mrs. Chas. H. Angevine

English.

AMY L. ROBINSON, A. M.,
German.

ANNIE CYRUS,
Drawing.

B. S. WILSON,
Music.

GENERAL INFORMATION.

The Ottawa Township High School is located in Ottawa, the county seat of La Salle county, Illinois. It was organized under the "Township System," April 13, 1878. It is supported by the city and the two adjacent townships of Ottawa and South Ottawa, and up to April, 1905, was under the control of the Township Board of Trustees. Since the founding of the school the following gentlemen have been members of this Board:

Dr. J. C. Hatheway.....1877-1882
J. H. Pickens.....1878-1881
William Galvin 1879-1882
P. C. Watts.....1881-1890
E. B. Lovejoy 1882-1885
Duncan McDougall 1882-1886, 1895-1904
Abner Strawn 1885-1888
W. J. Graham 1886-1889
G. W. Townsend 1888-1891, 1894-1906
T. E. MacKinlay 1889-1895
J. R. Hunt 1890-1905
Charles Schaulin 1891-1894
Walter F. Weese 1904-1905

On April 8, 1905, a Township Board of Education was elected, consisting of the following gentlemen:

James R. Hunt, Vincent J. Duncan,
Walter F. Weese, Emil G. Formhals,
Lorenzo Leland.

The business of the High School formerly managed by the Board of Trustees is now entrusted to the Township Board of Education.

COURSES OF STUDY.

Three regular courses of study are offered. They are planned for four years and are as follows:

GENERAL COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR.....	Am. Literature (4) Eng. Composition (1) Ancient History. Botany and Physiology. One Elective.	Arithmetic. Latin.
SECOND YEAR...	Mediæval and Modern History. Algebra. Two Electives.	Latin. Greek. French. German. Zoology. Bookkeeping. Drawing. Manual Training.
THIRD YEAR.....	Rhetoric and English. Geometry (Plane). Two Electives.	Latin. Greek. French. German. Chemistry. Drawing. Stenography and Typewriting. Manual Training. Household Arts. Civics.
FOURTH YEAR...	English Literature. Three Electives.	Latin. Greek. French. German. Solid Geometry and Advanced Algebra. Drawing, Stenography and Typewriting. Manual Training. Household Arts. Review of the Common Eng. Branches.

COLLEGE PREPARATORY COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR.....	Am. Literature (4) Eng. Composition (1) Ancient History. Latin. One Elective.	Arithmetic. Botany and Physiology.
SECOND YEAR...	Mediæval and Modern History. Algebra. Latin. One Elective.	German. French. Greek. Zoology. Drawing.
THIRD YEAR.....	Plane Geometry. Rhetoric and English Literature. Latin. One Elective.	German. French. Greek. Chemistry. Drawing.
FOURTH YEAR...	English Literature. Latin. Physics. One Elective.	German. French. Greek. Solid Geometry and Advanced Algebra. Drawing.

BUSINESS COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR.....	Am. Literature (5) Eng. Composition (5) Arithmetic. One Elective.	Botany and Physiology. Latin. Ancient History.
SECOND YEAR...	Mediæval and Modern History. Bookkeeping. Two Electives.	German. French. Latin. Zoology. Drawing. Algebra.
THIRD YEAR.....	Rhetoric and English Literature. Stenography and Typewriting. Two Electives.	German. French. Latin. Chemistry. Geometry. Drawing.
FOURTH YEAR..	English Literature. Stenography and Typewriting. Two Electives.	German. French. Latin. Reviews of the Common Eng. Branches.

Manual Training and Household Arts are offered to a limited number of pupils. It is still hoped that more room may be secured and that these courses may soon be extended and opened to all who desire to take them.

COURSES BY SUBJECTS.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues through the four years of the course.

FIRST YEAR.—(1) American Literature, reading of various authors, general view of History of American Literature; (2) Composition, one day a week—entire year of all courses; (3) English Composition, elective—entire year; (4) Ancient History, with reading of "Iliad," "Lays of Ancient Rome," "Julius Cæsar" and other illustrative literature—all courses, entire year.

SECOND YEAR.—(1) Mediæval and Modern History, and (2) Reading of illustrative literature such as "Idylls of the King," "Tale of Two Cities," etc.—all courses.

THIRD YEAR.—(1) Rhetoric and Composition—one-half year, all courses; (2) History of English Literature (based on Newcomer as text-book), with (3) reading of English masterpieces, college requirements and others—one-half year, all courses.

FOURTH YEAR.—(1) History of English Literature (based on Newcomer as text-book), with (2) readings from English masterpieces, college requirements and others—continuation of third year's work (2) and (3), and (3) review of English and Continental History, incidental—all courses, entire year; (4) American History, and (5) English Grammar, elective—one-half year each.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN.—First year: First lessons and Viri Romæ. Second year: Cæsar and Prose Composition. Third year: Cicero and Prose Composition. Fourth year: Virgil and Ovid.

GREEK.—First year: First Lessons and Anabasis. Second year: Anabasis and Prose Composition. Third year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

FIRST YEAR.—(1) Careful drill in pronunciation and upon the rudiments of grammar. (2) The memorizing of easy colloquial sen-

tences, proverbs, poems and songs. (3) The reading of 150 to 200 pages of easy stories like the following: Foster's "Geschichten und Märchen;" Seligmann's "Altes und Neues;" Mueller und Wenckebach's "Glueck Auf;" Stolte's "Bunte Geschichten." (4) Conversation based on texts read.

SECOND YEAR.—(1) Continued drill in grammar, composition and memory exercises. (2) The reading of 200 to 300 pages of moderately difficult prose and poetry, such as Wiedemann's "Biblische Geschichten;" Niebuhr's "Heroengeschichten;" Gerstæcker's "Germelshausen;" Storm's "Immensee;" Schiller's "Der Neffe als Onkel;" Zschokke's "Der Zerbrochene Krug;" Heine's Poems. (3) Conversation based on texts read.

THIRD YEAR.—(1) The reading of about 400 pages of good literature in prose and poetry, selected from the following: Thiergen's "Am deutschen Herde;" Wildenbruch's "Das edle Blut;" Sudermann's "Frau Sorge;" Schiller's Wilhelm Tell or Maria Stuart;" Goethe's "Herrmann und Dorothea;" Dillard's "Aus dem deutschen Dichterwalde." (2) Free translation from English into German. (3) The writing of short themes in German. (4) Conversation.

FRENCH.

FIRST YEAR. — Grammar; "Beginners' French," Francois; Reading; Reader (Aldrich and Foster); Simple French (Francois and Giroud); Poems memorized.

SECOND YEAR.—Grammar; Irregular Verbs; Prose Composition; Reading; "La Belle Nivernaise," Daudet; "Colomba," Merimée; "Le Tour de la France," Bruno; "Contes Biographiques," Foa; Poems memorized.

THIRD YEAR.—Grammar; Prose Composition; Themes; History of French Literature; Reading; "Pecheur d'Islande," Loti; "Le Bourgeois Gentilhomme," Molière; "Athalie," Racine; "Le Cid," Corneille; "Quatrevingt Treize," Victor Hugo; Poems memorized.

MATHEMATICS.

First year: Arithmetic. Second year: Algebra. Third year: Plane Geometry. Fourth year: Solid Geometry; review of Algebra and Arithmetic.

PHYSICAL SCIENCE.

CHEMISTRY.—Chemistry is a third year study and requires at least five hours per week throughout the year. The subject is developed largely from the laboratory standpoint, consequently the time is divided between class-room and laboratory exercises in such a

manner as, in the judgment of the teacher, will best serve the interest of the pupil.

After having studied the most common non-metals and metals, practice is given in the determination of simple mixtures from their behavior with reagents. In this practice the reactions are explained on the basis of the Ionic Theory.

PHYSICS.—Physics, a fourth year study, extends throughout the year. In presenting the subject effort is made to make practical the laws and principles studied by calling upon the pupils' experience both within and without the laboratory. About sixty experiments are performed by the pupils, and supplimenting these are various others given before the class.

BIOLOGICAL SCIENCE.

BOTANY.—This subject is pursued during the fall and spring months of the first year, and the effort is made to present the elementary facts clearly enough for the youngest pupil to gain a general knowledge of the science, if serious application is made to the work. In order to do this a beginning is made by the observation and study of the commoner phenomena of plants growing in a state of nature (plant physiology and ecology). This phase of the work is continued for about six or eight weeks, when the study of life histories of representative forms is taken up as the main line of work during the rest of the time. The following forms are studied to illustrate the four great sub-kingdoms:

Thallophytes.—Oscillaria, Gleocapa, Nostoc, Pleurococcus, Diatoms, Desmids, Spirogyra, Edogonium, Vaucheria, Cladophora, Mucor Saprolegnia, Lilac Mildew, Yeast, Wheat Rust, Toadstool.

Bryophytes.—A liverwort and a moss.

Pteridophytes.—A fern, Equiseturn, Selaginella.

Spermatophytes.—Pine, Lily, Corn, Bean, Pea, Shepherd's Purse.

During about eight weeks in the spring considerable attention is given to the determination of flowering plants (Angiospermæ) by the aid of a manual as a means of giving the pupils an insight into the characters distinguishing the more common orders.

HUMAN PHYSIOLOGY.—Ten or twelve weeks during the winter are spent in the study of this subject instead of Botany the first year.

ZOOLOGY.—Zoology is a second year study and occupies a whole year. Observation and dissection of as many type forms as possible are made, together with comparative study. The idea of adaptation is kept prominently before the pupils, thus making the

work of observation and dissection the basis of animal physiology and ecology.

The following are the types usually examined: Amœba, Vorticella, Paramœcium, Volvox, Pandorina, Fresh-Water Sponge, Hydra, Earthworm, Mussel, Snail, Crayfish, Cyclops, Sow Bug, Centiped, Grasshopper, Butterfly, Beetle, (Starfish), Fish, Frog, Pigeon, (Rabbit).

Birds are given a more detailed study near the close of the year so as to acquaint the pupils with the species most commonly met in the locality.

CIVICS.

(1) Civil Goverment of the Nation and of Illinois (James and Sanford and Trowbridge), and (2) Parlimentary Law—entire year, elective.

BUSINESS COURSE.

A special Business Course has been arranged, having as its fundamental studies American and English Literature, thorough training in English Composition, and extended study of Arithmetic, Bookkeeping, Stenography and Typewriting, together with the opportunity of electing such additional studies as may best meet the pupil's needs.

SHORTHAND AND TYPEWRITING.

A thorough course in Shorthand and Typewriting is open to students of the third and fourth years, and those who do the work well not only secure the educational value of this kind of training, but also may become sufficiently proficient to acceptably fill positions as stenographers. Excellent work is being done by those who have finished this course.

DRAWING.

Free-hand Drawing, consisting of work from models, casts, still life, sketching from nature and designing in pencil, charcoal, pen and ink and water colors.

Mechanical Drawing, consisting of lettering, geometrical and projection drawing.

MANUAL TRAINING.

The instruction in this department, besides having a distinctive practical value, inculcates in the student a love for work, habits of self-reliance and accuracy, neatness and perseverance.

This course comprises two subjects, Mechanical Drawing and

Shop Work. All work in the shop is planned and executed through the medium of mechanical drawing.

Mechanical Drawing.

This subject may be divided into four parts:

1. Preliminary work in free-hand drawing and lettering.

2. Assembly and detail drawings from models, parts of machines, etc.

3. Exercises in orthographic projection, the intersection of solids and the development of surfaces.

4. Tracing of mechanical drawings in ink. The process of making blue prints.

Shop Work.

The exercises given in this work are designed to bring into use successively all of the ordinary carpenter's tools. Special attention is also given to the care and sharpening of the tools.

Having become proficient in the use of the tools, the student is given exercises covering all of the joints used in cabinet making.

After the development of sufficient skill in the making of exercise pieces, applications are made in cabinet work, construction of furniture, etc. Staining and varnishing of hard and soft woods is also a feature of this work.

HOUSEHOLD ARTS.

Course, One Year.—This department offers a practical course in plain cooking, with practice in table service and systematic care of a kitchen. The course aims at excellence in the preparation of ordinary foods, at neatness and orderliness in the kitchen, and especially at accuracy, thrift and sound judgment on the part of the pupil as to matters of household economy.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared. **It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses must be followed;**

and that the irregular courses, sometimes chosen by the pupils and approved by their parents, may not admit to any regular college course.

REQUIREMENTS.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of Descriptive Geography, United States History, Englisn Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at 9 o'clock a. m.

FOR PROMOTION AND GRADUATION.

Scholarship is estimated in four grades—excellent, good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they are required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupils must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required, each credit indicating twelve weeks' successful work in any study. After the present year terms will be lengthened to nineteen weeks.

NUMBER OF STUDIES.

To complete the courses of study outlined above four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Bookkeeping, Stenography and Typewriting, Manual Training, Household Arts, Drawing and Vocal Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also as home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life or for further study in the higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their duties, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

ADMISSION TO COLLEGE.

The diploma of the school, together with the principal's certificate and recommendation, secures admission, without examination, to any college or university in the North Central Association of Schools and Colleges, and to most similar schools in any part of the country.

EXPENSES.

Non-residents are required to pay a tuition fee of forty-five dollars a year, payable to the treasurer, Oscar Haeberle, at the First National Bank, as follows: $15 in September, $15 in December and $15 in March of each year.

Board can be had in private families at about $3.50 to $4 per week. A list of boarding places can be found at the Principal's office.

ENROLLMENT OF 1906-7.

---

*Deceased.

TO GRADUATES.

It is the desire of the management to make the foregoing list of graduates, and the information concerning them, as accurate as possible, and to that end graduates are earnestly requested to send to the Principal of the High School any information they may have concerning changes of residence or occupation, marriage, death, etc., of any graduate. By the co-operation of the graduates of the school the list could be made much more accurate than it is.
